TIMELINE

WAEC O-Levels

■ EXPERIENCE

May 2015 - Present

♥ Lagos, Nigeria

Chief Technology Officer / Goga Africa - RC 898729

I develop and implement ICT policies, procedures, and implemented an on-premises/hybrid enterprise network data center. These efforts resulted in a 35% increase in organization revenue over a period of six months

May 2021 – Mar 2022

♥ Abuja, Nigeria

Consultant, Contractor/ RETV – RC 1596810

Successfully designed and launched a modern website & social media infrastructure, resulting in over 500k combined subscribers within 1.5 months. Led a worldwide online campaign that increased company growth by 600% in 1 month, and provided in-depth technical, administrative, and management staff training

Mar 2017 - Present

♥ Lagos, Nigeria

Founder / Kizomba Nigeria – RC 1399159

I transformed the company's business operations implementing solutions that streamlined key processes, driving 80% of its revenue. This included tracking business operations, selling tickets and merchandise, and allowing customers to track and manage their learning progress, purchases, and subscriptions.

Apr 2013 – Oct 2014

♥ Lagos, Nigeria

Consultant, Contractor / G-MEDIA – RC 1149368

Led the development of a best-in-class system for G-Media's Nollywood Movie Database and Distribution project funded by the Bank of Industry for \$12 million, was recognized by Nollywood in 2013. I also trained over 100,000 people on how to use the system.

Sep 2009 – Apr 2010

♥ Lagos, Nigeria

Consultant, Contractor / Proximity Communications – RC 740027

I designed and implemented an enterprise network and a 10-seat call center which increased company revenue by 65% in Q1 2010. I also developed the company's website and provided ICT maintenance & training, and deployed an enterprise CRM solution that improved employee efficiency by 80%

Sep 2007 – Jan 2013

♥ Lagos, Nigeria

Principal Consultant, Contractor / Alex & Forbes – RC 961466

I successfully led an internationally diverse team in the development and implementation of a Queue Management System for MTN Nigeria's customer service centers nationwide. This project was completed within a 10-month timeframe and generated \$1.9 million in revenue for the company. In addition to this role, I was also responsible for designing and deploying the company's website.

Apr 2005 – Present

♥ Lagos, Nigeria

Founder, CEO / Manndi Technologies – RC 1104306

As a visionary leader, I am responsible for setting the direction of the company, driving growth through strategic planning, overseeing daily operations, and cultivating strong relationships with key clients, partners, and stakeholders. I excel at financial management, staff recruitment and development, and staying current with industry trends, all while driving the success of the company.
